Notes to the Condensed Consolidated Interim Financial Statements

Nine months ended September 30, 2021 and 2020

(Expressed in Canadian dollars)

1. Nature of Business and Continuing Operations

Stallion Gold Corp. (formerly Hybrid Minerals Inc.) (the “Company”) was incorporated on November 7, 2011 under the Business Corporations Act (British Columbia). The head office of the Company is located at Suite 700, 838 West Hastings Street, Vancouver, British Columbia, V6C 0A6.

The Company’s principal business activities include the acquisition and exploration of mineral property assets.

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. This contagious disease outbreak and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. The impact on the Company has not been significant, but management continues to monitor the situation.

These condensed consolidated interim financial statements have been prepared on the going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. For the nine months ended September 30, 2021, the Company has not generated any revenues and incurred negative cash flow from operating activities. As at September 30, 2021, the Company has an accumulated deficit of \$9,248,175. The Company’s ability to continue as a going concern is dependent upon its ability to generate and maintain future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company’s liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast doubt on the ability of the Company to continue as a going concern. These condensed consolidated interim financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

2. Significant Accounting Policies

(a) Statement of compliance and basis of presentation

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards (“IAS”) 34 – Interim Financial Reporting of the International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board. As such, these condensed consolidated interim financial statements have been condensed and do not include all information necessary for an annual financial statements prepared under IFRS and, therefore, should be read in conjunction with the annual consolidated financial statements of the Company for the year ended December 31, 2020.

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned Canadian subsidiary, Hybrid Minerals USA Inc. (“Hybrid USA”), and Mineral One Corporation (“Mineral One”), which is a wholly-owned U.S. subsidiary of Hybrid USA. All significant inter-company balances and transactions have been eliminated on consolidation.

These condensed consolidated interim financial statements have been prepared on a historical cost basis and are presented in Canadian dollars.

(b) Use of estimates and judgments

The preparation of these condensed consolidated interim financial statements in conformity with IFRS requires the Company’s management to make judgments, estimates, and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

STALLION GOLD CORP. (formerly HYBRID MINERALS INC.)

Notes to the Condensed Consolidated Interim Financial Statements

2. Significant Accounting Policies (continued)

(b) Use of estimates and judgments (continued)

Significant areas requiring the use of estimates include the recoverability of exploration and evaluation assets, fair value of share-based compensation, and unrecognized deferred income tax assets. Actual results could differ from those estimates.

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits are likely either from future exploitation or sale or where activities have not reached a stage which permits a reasonable assessment of the existence of reserves. The deferral policy requires management to make certain estimates and assumptions about future events or circumstances, in particular whether an economically viable extraction operation can be established. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in the consolidated statement of operations in the period when the new information becomes available.

The assessment of whether the going concern assumption is appropriate requires management to take into account all available information about the future, which is at least, but is not limited to, 12 months from the end of the reporting period. The Company is aware that material uncertainties related to events or conditions may cast significant doubt upon the Company's ability to continue as a going concern.

(c) Accounting standards issued but not yet effective

A number of new standards, and amendments to standards and interpretations, are not yet effective for the period ended September 30, 2021, and have not been early adopted in preparing these condensed consolidated interim financial statements. These new standards, and amendments to standards and interpretations are either not applicable or are not expected to have a significant impact on the Company's consolidated financial statements.

5. Share Capital (continued)

- (b) During the year ended December 31, 2020, the Company issued 500,000 common shares for proceeds of \$150,000 pursuant to the exercise of share purchase warrants. The fair value of share purchase warrants exercised of \$124,590 was transferred from warrants reserve to share capital upon exercise.
- (c) On June 2, 2021, the Company issued 12,000,000 common shares with a fair value of \$6,120,000 pursuant to the Agreement to acquire Horse Heaven Parent (Note 3).
- (d) On July 15, 2021, the Company issued 5,002,500 common shares at a price of \$0.40 per share for gross proceeds of \$2,001,000. Each unit consists of one common share of the Company and one-half of one transferable share purchase warrant, each whole warrant entitling the holder to acquire one additional common share at an exercise price of \$0.50 for a period of 12 months. In addition, the Company paid finders' fees of \$87,600. The Company also issued 219,000 finder's warrants with a fair value of \$68,879. Each finder's warrant entitles the holder to purchase one common share at an exercise price of \$0.50 per share expiring one year after the effective date. The fair value of the finder's warrants was calculated using the Black-Scholes option pricing model with an expected life of one year, volatility of 202%, risk-free rate of 0.25%, and dividend yield of 0%.

6. Stock Options

The Company adopted an incentive stock option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the TSX Venture Exchange requirements, grant to directors, officers, and consultants to the Company, non-transferable options to purchase common shares. The number of common shares reserved for issuance is not to exceed 10% of the issued and outstanding common shares of the Company. Such options will be exercisable for a period of up to five years from the date of grant.

The following table summarizes the continuity of the Company's stock options:

| | Number of options | Weighted average exercise price \$ |
|---|----------------------|--|
| Outstanding, December 31, 2019 and 2020 | 933,333 | 1.20 |
| Granted | 900,000 | 0.345 |
| Expired | (933,333) | 1.20 |
| Outstanding, September 30, 2021 | 900,000 | 0.345 |

During the nine months ended September 30, 2021, the Company granted 900,000 stock options to certain employees, officers, directors and/or consultants of the Company and recorded a stock-based compensation expense of \$286,830 during the period calculated using the Black Scholes Option Pricing Model with the following assumptions: exercise price of \$0.345, expected life of the options: 5 years, expected volatility: 189%, expected dividend yield: 0%, and risk-free rate: 0.87%.

Additional information regarding stock options outstanding as at September 30, 2021, is as follows:

| 1,570,667 | 0.15 | October 2, 2022 |

8. Capital Management

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and equity comprised of issued share capital, share-based payment reserve, and warrants reserve.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through new share issuances or by undertaking other activities as deemed appropriate under the specific circumstances.

The Company is not subject to externally imposed capital requirements and the Company's overall strategy with respect to capital risk management remains unchanged from the year ended December 31, 2020.

9. Financial Instruments and Risk Management

(a) Fair Values

Fair value measurements are classified using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair values of financial instruments, which include cash, accounts payable and accrued liabilities, and amount due to related party, approximate their carrying values due to the relatively short-term maturity of these instruments.

Notes to the Condensed Consolidated Interim Financial Statements

Nine months ended September 30, 2021 and 2020

(Expressed in Canadian dollars)

9. Financial Instruments and Risk Management (continued)

(b) Credit Risk

Credit risk is the risk of potential loss to the Company if a counter party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash. The Company limits the exposure to credit risk by only investing its cash with high-credit quality financial institutions. The carrying amount of these financial assets represents the maximum credit exposure.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising debt or equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs. The Company is currently not exposed to any significant liquidity risk.

(d) Foreign Exchange Rate Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is currently not exposed to any significant foreign exchange rate risk.

(e) Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk as it does not have any liabilities with variable rates.

(f) Price Risk

The Company's ability to raise capital to fund exploration activities is subject to risks associated with fluctuations in the market price of mineral resources. The Company closely monitors commodity prices to determine the appropriate course of actions to be taken.
